

# Community Matters!

Presented by:

We welcome you to experience a broad range of ideas, reflections, emotions and perspectives about why community does and should matter! Artists have used powerful storytelling to capture the role we play as individuals and the core values which act as pillars upon which a good community is built.

In the current fast paced world where loneliness, isolation and economic struggles have become common place, the exhibit explores the importance of human connection and the power of leaning into each other!

**IACS is proud to present the work of our 20 exhibiting artists who present their interpretations of "Community Matters!"**

**Exhibition Open Weekdays  
October 25 - January 31**
